Masonic Ball Games

The local Masonic ball team journeyed to Corinth Tuesday and crossed bats with the Masonic team of that city. The game was fast and furious with many features, the most important of which was the work by "Baby" John King and catcher Baeder of the Okolona team and the good batting by this team. Corinth put in three pitchers but little was the difference and our boys brought away the laurels on a score of 12 to 5.

This was the second game between these two teams, the first having been played at Tupelo on June 24th. The tie will be played off here this afternoon when one of the best games of the season is expected. The very best of fellowship will prevail as was the case at Corinth but each team will exert its full strength in an endeavor to win.

The charges will be 25 and 50 cents. Members of the fraternity only paying 50 cents, while all others will be admitted for 25 cents. The net proceeds goes to the Orphans' Home at Meridian.

How does she make that extra 10 lbs.?

COWS that get only enough protein and calcium from grass to make 20 lbs. of milk may make 30 lbs. for a time on grass alone. They do it by drawing upon their bodily tissues for the other 10 lbs. But their milk will suddenly fall off unless a concentrate is fed.

Don't let cows "run down"—

Feed Purina Cow Chow Now

You can get about 3 1/2 lbs. more milk per day from each cow on pasture, for every pound of Purina Cow Chow you feed. Cows keep in better condition for winter production, and you can milk them longer. Call us up. We put the proof in your milk pail.

YOU do not have to wait till the plasterer says he can come when you use Carey Board.

The carpenter on the job can apply it or you can put it on yourself if you have to.

There is no muss, no freezing, no dampness to worry about, no finishing coat to come later, no ghostly white walls that call for paper-hanging expense.

Carey Board is made of pure fibre strongly built up in three plies and cemented with asphalt which makes it absolutely water-proof. It is finished in a cheerful buff color that will take decoration but does not require it.

Use it in place of plaster.
